

Potential Wind Capacity at 110-Meters Hub Height

35% or Higher
Gross Capacity Factor
2014 U.S. Wind Industry
Average Turbine

Oregon

This map was produced by the National Renewable Energy Laboratory for the Department of Energy, January 2015

This map illustrates general wind resource potential only and is not suitable as a siting tool. More detailed site and wind speed data, as well as coordination with relevant authorities, are needed to thoroughly evaluate appropriate wind energy development at any given location. *Data sources: AWS Truepower, National Renewable Energy Laboratory*
